GROUP DENTAL INSURANCE

Maintaining a healthy smile is important to your overall health, but regular trips to the dentist can be costly. NSPE Group Dental Insurance helps keep your budget in check. Our plan covers both preventive and emergency services, helping your smile stay bright year after year.

Why Choose NSPE Group Dental Insurance?

NSPE Group Dental Insurance can provide real value for your dollar. With NSPE, you'll help:

- **Choices:** You'll have access to thousands of dentists and specialists located throughout the country
- **Quality:** Each participating dentist has gone through a rigorous and ongoing review and selection process¹
- **Freedom:** You can choose the dentist you want, regardless of whether he or she is inside or outside of the network²
- **Efficiency:** 71% of claims are processed in just one business day³
- **Savings:** Negotiated fees⁴ are typically 30-45% less than average fees⁵ for the same or similar services charged by dentists in your area

How does this plan work?

The NSPE Group Dental Insurance plan provides benefits for preventive care and most forms of emergency and specialty dental treatment. You can choose between the High Plan or the Low Plan, depending on your specific needs and budget. Details of each option are outlined here.

Low Plan

Annual Maximums: You and your covered spouse and dependents are entitled to receive up to \$1,000 each in dental benefits in any calendar year after the cash deductible is satisfied.

Deductibles: For Type B (basic) and Type C (major) services, an annual deductible of \$75 is required for individual coverage. For family coverage, the annual deductible is \$225. For Type A (preventive) services, the deductible is waived.

Reimbursement: You and your covered dependents will receive reimbursement for dental services according to the following guidelines:

- Type A (preventive): 80%
- Type B (basic): 60%
- Type C (major): 50%

The reimbursement schedule for dental services is the same, regardless of whether you choose an in-network or out-of-network dentist. However, your out-of-pocket costs may be higher with an out-of-network dentist. Out-of-network dentists have not agreed to accept negotiated fees, which are typically 30-45% less than the average fees charged in a dentist's community for the same or similar services.

¹Certain providers may participate with MetLife through an agreement that MetLife has with a vendor. Providers available through a vendor are subject to the vendor's credentialing process and requirements, not MetLife's. If you should have any questions, contact MetLife Customer Service.

²Out-of-pocket costs may be greater if you visit a dentist who does not participate in the network.

³MetLife data as of year-end 2016.

⁴Negotiated fees refers to the fees that in-network dentists have agreed to accept as payment in full for covered services, subject to any co-payments, deductibles, cost sharing and benefits maximums. Negotiated fees are subject to change.

⁵Based on internal analysis by MetLife. Savings from enrolling in a dental plan will depend on various factors, including how often participants visit the dentist and the costs for services rendered.
